# ABOUT US

Venamoldes located in Leiria is dedicated to the production of technical moulds for the plastic industry. Our equipment and software have state-of-the-art technology which, together with our experienced, committed, and specialised employees, enables the quality development of small and medium-sized moulds for several applications meeting the challenges and expectations of our clients.

Our differentiating factors include compliance with deadlines and the high quality of our finishes. We supervise all project stages from budgeting to project study and development, and from manufacture to the end product.

Our moulds are subject to strict quality control during the different stages of their production. ONLY A MOLD DESIGNED WITH MAXIMUM ACCURACY CAN PRODUCE PERFECT PIECES.

THE QUALITY OF OUR MOLDS  
HAS ALLOWED US TO CONQUER  
THE MOST DEMANDING MARKETS.
